Are you ready? Have you done your homework? Two hours of consultation time will answer all your questions. We'll help you create winning strategies for introducing your book to market. And, to ensure you understand your book industry responsibilities, you'll receive our Preliminaries Resource Kit — an interactive PDF file with live links to all the book industry agencies for forms filing... ISBN, LCCN, PCIP, BIP, and more. This package includes MarketAbility's 7 Step Maximum Exposure book marketing planning tool to identify your markets, define your strategy, organize your tasks, and execute your campaign. This will save you from making deadly mistakes.

1

Confused? Lack of time? This package does all the hard stuff for you. We file your ISBN's application, register you with the LOC, set up your participation in the PCN program, file for your LCCN, get your PCIP, update BIP, and file a Copyright for you. These are the critical activities that make you a professional publisher and make your book available to the book trade. We'll notify you of each step in the registration process. This package comes with our Preliminaries Resource Kit that helps you understand the importance of these tasks while we complete them for you.

2

You are an expert author now. Look like one! We'll dress you up and prepare you to meet your public with a professionally designed media kit. We'll also help you develop your publisher website. We understand what the book industry requires from your promotional material. Press releases, bios, fact sheets, flyers, direct mail pieces, bookmarks, letterhead, and your website are all developed specifically for your target markets. The message is effective and the design is brilliant. Don't go to the dance in that homespun dress... let us tailor one for you.

3

Now it's time to get down to business — introducing yourself to every possible market that is suitable for your book. It must be done swiftly, sweepingly, and correctly. Galleys, pre-pub book reviews, title listings, book exhibits, publication reviews, distribution solutions, Amazon, B&N, library mailings, bookstore mailings, B&T, initial publicity, and website registration. We will coordinate and execute this part of your book marketing activity so you can focus on public relations.

4

Now let's kick it up a notch. Yeah baby. We'll help you identify your target markets for sales. Niche markets, special sales, catalogs, web communities, associations, organizations, speaker's bureaus, newsletters, etc. We'll research these areas to find book opportunities for you. We'll initiate contact by customizing letters and sending the killer media kit we've created for you in level 3. This service also includes various levels of publicity services from the book industry's top media relations experts, Phenix & Phenix and MarketAbility, that are discounted specially for our clients.
